Welcome to the Department of Sociology

The Department of Sociology at Shahjalal University of Science and Technology (SUST) began its academic journey in the 1992–93 session by admitting approximately 30 undergraduate students. Its primary objective was to disseminate humanistic and scientific knowledge about human beings and their social worlds. Since its inception, the Department has evolved into one of the oldest and most reputed academic units of SUST.

To date, the Department has successfully awarded Bachelor's and Master's degrees to around 1,315 students across twenty batches. Many of these graduates have produced excellent theses that contribute significantly to the Department's vision and mission. Over the years, numerous alumni have pursued higher studies at prestigious universities around the world, while many others have established themselves in diverse professional sectors—including academia, public administration, finance, industry, health, NGOs, and other areas—playing crucial roles in national development.

Under the current Graduate Studies Committee (GSC) curriculum, the Department offers programs leading to Bachelor's, Master's (General and Thesis), M.Phil., and Ph.D. degrees. The curriculum encompasses a wide range of theoretical and applied areas, including Social History, Classical and Contemporary Sociological Theories, Development and Politics in the Global South, Research Methodology, Poverty and Environment, and Gender Studies, among others. The Department's research portfolio covers advanced sociological issues and employs both qualitative and quantitative methodologies.

Beyond academics, students actively participate in sports, cultural, and extracurricular activities, fostering a holistic learning environment. With the commitment and academic excellence of its faculty members, the Department strives to equip students with critical sociological insight and applied analytical skills, enabling them to engage effectively with diverse societies and professional domains.

Mission

The Department of Sociology is dedicated to providing students with a comprehensive and diverse understanding of sociological perspectives and practices. It aims to cultivate critical thinking, analytical ability, and social awareness among students to help them better understand and respond to complex social realities.

Vision

Our vision is to generate and disseminate sociological knowledge that promotes greater awareness and understanding of social structures, processes, and challenges at local, national, and global levels. The Department aspires to be a vibrant center of excellence in teaching and research in Sociology in Bangladesh.

The Department houses a well-equipped computer laboratory and a seminar library to support student learning and research. It maintains a strong research ethos, with faculty members actively engaged in publishing high-quality research covering diverse sociological themes. This scholarly commitment has placed the Department on a strong academic foundation, making it one of the most prestigious Sociology departments in the country.

Graduates of the Department have excelled in various professional fields, joining both public and private institutions in Bangladesh and abroad. The Department encourages all students to "think sociologically"—to approach social life with critical reflection and intellectual curiosity.

In pursuit of its mission, the Department continues to make significant research contributions on pressing social issues at the local, national, and international levels. With a balanced focus on theoretical development and methodological rigor—both qualitative and quantitative—the Department of Sociology remains committed to fostering academic excellence and advancing the discipline in Bangladesh.

About Me

I am an undergraduate student in the Department of Sociology at SUST. My academic and research interests include socio-economic inequality, gender and development, youth studies, and qualitative research methods. I enjoy fieldwork, data analysis, and writing that explores real-life social issues.

Education:

Higher Secondary Certificate (HSC)

Institute : Kazipur Thana Sadar Business Mgt. College
Board : Daka
Session : 2017-2018
Group : Computer & Information Technology
Passing Year : 2019
Result : GPA 4.42 out of 5.00

Secondary School Certificate (SSC)

Institute : Kazipur Thana Sadar Business Mgt. College
Board : Daka
Session : 2017-2018
Group : Computer & Information Technology
Passing Year : 2019
Result : GPA 4.42 out of 5.00

Bachelor of Social Science (BSS):

Institute : Shahjalal University of Science and Technology
CGPA : 2.57
Passing year : 2011
Session : 2024-2025

Master of Social Science (MSS):

Institute : Shahjalal University of Science and Technology
CGPA : 2.57
Passing year : 2011
Session : 2026-2027

Research:

1. A Study on Social Media Use and Its Impact on Youth Social Interaction. This research explores how social media influences the face-to-face social interaction and well-being of university students in Sylhet.

Started: Feb 2024

2. A Study on Social Media Use and Its Impact on Youth Social Interaction. This research explores how social media influences the face-to-face social interaction and well-being of university students in Sylhet.

Marjana Akter, a former student of the Department of Biochemistry and Molecular Biology at Shahjalal University of Science and Technology (SUST) had become the first Bangladeshi woman selected for the United Nations Young Women for Biosecurity Fellowship 2025 and based on which she has earned a 7th place spot in the prestigious Asian Youngest 100 Scientist, 2026. Her journey reflects not only personal excellence but also the growing potential of Bangladesh's young researchers on the global stage. To know more about her journey of becoming a well-recognised scientist, I sat down with Marjana
